

This is to certify that on the 3rd February, in the year 2007, that brave Investigator Mr Casey Jones under the guidance and tutelage of Keary Birch, as witnessed by the all seeing eye of the Keeper and their fellow intrepid explorers, did survive the adventurous exploits here after referred to as Over The Rainbow, this having taken place at the gathering of Conception 2007.

The **Shadow Warriors**, under whose control and watchful gaze these events took place do thank Keary Birch for their dedication to the pursuit of abandonment of sanity, chaotic interpretation of story arcs and general devotion to thwarting any and all plans of the **Call of Cthulhu** Keeper in bringing about the end of the world as we know it.

Mr Casey Jones can stand tall and proud, counting themselves among the small number of Investigators that worship at the altar of **Call of Cthulhu** Convention games and live to tell the warped and ever growing tale.

With the sincerest of thanks,

For and on behalf of
the Shadow Warriors
Role Playing Club.
