Da Beginin

Well wer to start really!

On da boat is probaly da bes' place coz dats my first memry!

Sittin on a wooden chair facin 6 uders. All sittin on chairs wiv somat drawn on da floor. Were all in a circle wiv like spokes comin from a central bit. The hole room seems ta be slowly rockin which aint what its supoze ta be eva.

So I get up and look arand. Thers' sum ded guy wiv no hed layin on da floor a light finky with dangly bits and a hole in da wall. Oh yeah there's his hed and a canon ball. Ha! looks like he wazn't so lucky but maybe lucky for uz. But why am I ere? wer is ere? defnatly not natral! Why cant i rememba anythin? Infack what da fuck is goin on?

So letz see wats goin on... I walk ova ta da porthole an look owt. Bugga me wer at sea!!! der's anofa ship flying flags saying Ostaland and no quarta?? Are day tryin to sink us?

So da uders all start ta get up and move arand. Evryone is yellin and sayin smart tings but wat do i care!

Anyway we decide to go and der is only 1 door so we go for it. it's not locked or anyfin so we open da door an it leads owt ta a passage. we all pile owt an look arand but nofin's happenin darn ere. Der's a few rooms wiv some stuff in but I just really wanna get up on deck and ask sum questions. So it only goes ta me ta get up da ladda and see wats wat.

Well the welcomin party is wat i'm expectin anyway. I get shot at and duck darn agen. Da uders are up for it so i get out n start to introduce mysen wiv me axe! der's alota fightin goin on and I do most of da killin an outa da rest the tax collecta is da only one dat kills anyone. Den we see the captin/first mate or wateva and he turns out ta be a chaos finky. Tenticle and legs on backwads. Anyway he's da only one dat escapes by jumpin ovabord!!

Da only fing is dat we'r on a boat and noone ta stear it!

Da ova boat is still chasin us so Seth I fink his name is tries ta stear us arand and heds for shore. He seems ta be doin alrite wen we spot a cave and hed for it. Na for someun oo has neva steared a boat befor gettin us in dat cave is goin ta be tricky but he does it!! Dan fings get a li'al tricky and we slam strait inta da dock.

It dont sink an' we get off quick like.

So.. we'r in a cave with a statue and sum stairs goin up so we hav a quick gander at da statue and find it's holla the nthe tricky bit happens. We hafv to get up denm stairs which look like they are might slippy. Well a couple go up alrite then one fella goes up and falls into the water! We manage to save 'im and he finally get up but like a blundering oaf I fall in aswell. Well one of dem manges to save me I fink it was Seth that did that aswell but who can tell all dem manling look the same to me.

Anyway we get up them stairs and find oursens in a stone circle i fink or was it close by. I cant really tell but I dont care we'r on dry land!!
